Our major purpose is to give users a safe and secure environment where they can use their cryptocurrency for, advertisement, investment in metaverse, game and purchase or sale of NFT.

# INTRODUCTION

Meta NFT World is a decentralized social marketplace offering gamers and music artists the ability to connect with each other along with investors and digitally exchange NFTs for their creations within a sustainable and powerful Tokenomics system running on the blockchain, giving access to a world of opportunities for those with a passion tied to the entertaining values of games and music and performance arts. Some of the biggest challenges now afflicting the gaming and music business are being addressed by blockchain.

Musicians and can get equal royalty payments, venues can prevent counterfeit tickets, and record labels can simply track music streams and quickly compensate all artists who contributed to songs or albums thanks to blockchain.

Blockchain is one technology that has the ability to alleviate the industry's problems. That is to say, blockchain has the potential to re-establish a fair and transparent system for producing, buying, selling, listening to, and managing music.

Meta NFT World Token is the official currency for the Meta NFT World platform. Musical artists and producers may sell musical projects or songs as NFT on Meta NFT World, a decentralized market and streaming platform. It was created to reward long-term investors by charging sellers a small fee, with a portion of that cost flowing back to current investors. Meta NFT World Token, like other well-known cryptocurrencies like Bitcoin and Ethereum, is powered by Binance Smart Chain.

As we all know that the popularity of digital currency has allowed a new economy to flourish parallel to the existing traditional money tied to centralized banks, we are creating an ecosystem that provides interest to their token holders as well as it will provide an opportunity for Everyone to flourish their ideas.

The use of technology will facilitate a financial revolution that will leave everyone more financially connected, empowered. The aim of META NFT WORLD Token is to provide security, Transparency, High limits cash deposit and withdrawal, and better odds. In short, META NFT WORLD Token is a solution base ecosystem in a single form.

# OUR MISSION

Our mission is to redefine Art, Music, Gaming characters distribution through NFT's. As we are ready to launch it with the all kind of Art, Music and Game characters with different categories!

We have established a decentralized art distribution and royalty management system to better reward artists and their fans.

META NFT WORLD connects fans directly with artists in a beautiful interface.

Our mission is to take "META NFT WORLD" to New Heights" by offering customers an innovative, user-friendly, one-stop shop to find everything they need to buy, but to research and make a more precised decision, utilizing a platform with a decentralized blockchain, to give every person in the world an equal chance to manage and improve their financial security.

## Our Mission is to

- Provide every Customer with simple and effective ways to buy physical & digital assets.
- Decrease volatility and increase positive price pressure in digital asset staking.
- Operate as a community-focused and community-driven digital asset, fully decentralized in every sense of the word.
- Our mission is to pave the growth of decentralized p2E marketplace adoption - this happens when the users feel confident to explore the blockchain and supported to build the future of decentralization.

# META NFT WORLD VISION

We aspire to put "cryptocurrency in every portfolio." We envision a world where wealth-building strategies that were once only accessible to affluent individuals become available to everyone, transferring the power back to the people. Meta NFT World is going to create a revolutionary ecosystem to bring more people into digital assets, helping to earn a passive income through holding the different currencies along with maintaining their privacy, security, power, and autonomy.

We believe that through the power of collective decentralization, we can build affordable housing anywhere in the world, because those individuals have created a community and give it a purpose. Meta NFT World aims to be the most known and most used cryptocurrency in the digital industry.

We are constructing a platform that will allow our users to acquire musical NFT using our native token, which is the future of the music and game business. Holders of our token will be able to purchase gaming and musical NFT and stream music while earning incentives on our site. We developed a new ecosystem that eliminates transactional difficulties and exorbitant costs while maintaining fairness and privacy for all consumers. Music, in this case, adds color to the air of the occasion. Meta NFT World Token adds a splash of color to the crypto market.

# ECOSYSTEM

Gaming & Music

Metaverse

# ECOSYSTEM

Meta NFT World Metaverse is offering the buying and selling of Gaming characters, Creating NFTs, hosting musical events, and playing games. Each art work is tokenized as a unique non-fungible token on the Binance Smart Chain. Because every art work on Meta NFT World is an NFT, or in other words, a digital asset that cannot be repeated. It can be traced to check the original creator and the current owner easily. Providing a way to prove your virtual identity across the metaverse.

The use of technology will facilitate a financial revolution that will leave everyone more financially connected, empowered.

The aim of Meta NFT World is to provide security, Transparency, and work to provide benefits to people and token holders. In short, Meta NFT World offers several benefits to Investors and Developers.

Our platform is now allowing makers of digital collectibles to experiment with new revenue strategies and use it as a payment system. Each underlying token has a genome that specifies its look, characteristics, and origin. Meta NFT World cannot be duplicated or distributed without the consent of the user.

Our main objective is to revolutionized the musical industry by spreading the notions about blockchain and NFTs. We all know that artists have to struggle while getting paid due to several reasons but our goal is to introduce a platform where no one will entertain such type of troubles.

# LOCKED LIQUIDITY

Liquidity pools are collections of tokens maintained in smart contracts that provide liquidity in decentralized exchanges, attempting to ease the problems posed by the inherent uncertainty of such systems. Over one is a favourable liquidity ratio; the more significant the balance, the better the company's safety margin to fund current liabilities. No one has to worry about providing Liquidity because our platform offers a specific % of the total token supply to the Liquidity Pool is locked and fills up automatically.

# BENEFITS OF NFTS

Non-fungible tokens have altered decentralised exchanges. Some of the advantages of crypto-currency include:

## Ownership Rights

The primary benefit of non-fungible tokens is the ability to prove ownership. NFTs can assist in linking ownership to a single account because they are on a blockchain network.

## Authenticity

The advantages of non-fungible tokens are essentially determined by their rarity. NFTs are created on the blockchain, which means they are tied to one-of-a-kind data. The particular qualities of NFTs reveal their ability to add value. Simultaneously, NFT manufacturers have the option of releasing a restricted number of NFTs to create supply scarcity.

## Fraud proof

They are easily transferred and unaffected by fraud.

# STAKING

Staking is a great way to maximize your holdings in staking coins and fiat that would otherwise be sitting in your Meta NFT World account. Once you have staked your assets you can earn staking rewards on top of your Staking and grow them further by compounding those future rewards. This provides dual benefits of securing the blockchain network as well as creating an opportunity for users to get incentives or dividends on their staking.

As an incentive to acquire and keep onto staking assets, you can receive incentives by staking cryptocurrencies and fiat for a period of time. A bonding period may be required for some staking currencies. Simply choose the asset you want to stake to earn staking rewards, and after it has done bonding, it will be ready to start staking and receiving rewards twice a week through the Proof of Stake process. Our staking platform will help the community increase the number of Meta NFT World tokens that users hold. More importantly, every time you stake, you will participate in the charity donation.

- The Meta NFT World Wallet enables users to stake, store, and exchange cryptocurrency.
- Simple to operate. It works just like any other program or wallet that you use daily.
- Extremely secure. It's just a case of safeguarding your private key.
- Enables cross-border transactions in real-time. And they are barrier-free, intermediary-free transactions.
- Transaction costs are minimal. Transferring money is much cheaper than with conventional institutions.
- Enables cross-currency transactions. This enables you to do simple currency conversions.

# BENEFITS OF STAKING

Staking is advantageous in the world of crypto-currencies since it generates incentives and passive income by maintaining the currency on any market. In a decentralized system, the simplest method is to own a currency and stake the pool. However, staking consumes much more energy and poses a greater risk than crypto mining. Meta NFT World can help you.

## No Hardware Required

Unlike proof of work, crypto staking does not need any specialized equipment or technology. Demonstration that stakes work without the need for any specialized equipment. The sole requirement is that holders of the currency maintain it on any transaction for an extended time.

## Passive Income

Stakeholders are compensated for managing and maintaining control over their digital assets. The receiver receives passive income as a result of Staking.

# BENEFITS OF STAKING

## Scalability

The word "scalability" is often used in the Blockchain business. It refers to a computer processor's ability to be used or produced in a variety of ways. As shown by Meta NFT World increased transaction output and lower transaction costs, proof of stake techniques allows greater scalability.

## Eco-Friendlier

Since proof of stake blockchain uses less energy, they are more ecologically friendly. As a consequence, they have a lower carbon footprint and little to no negative effect on the environment.

## More Cost-Effective

Evidence of stake typically, blockchain are low-cost and energy-efficient systems that do not need specialized or costly technology. PoS is less expensive and less ecologically damaging than proof-of-work chains. As a consequence, stakers may earn more passive income by using Meta NFT World Tokens.

## Secure

Security and privacy are the most urgent issues in today's society, and Meta NFT World offers a fast and secure gateway guaranteed by the Meta NFT World contract, placing him ahead of the competition. Additionally, Meta NFT World offers a very safe and quick platform for staking crypto-currency to its clients.

# METAVERSE AND META NFT WORLD

Our Metaverse ecosystem is base on a gaming concept which allow people of legal age to participate in it whereas far as being part of NFT registration is concerned it is only available to people for them as well.

Our ecosystem is designed in a virtual world where everyone will be part of a game and each of us can participate in it in an independent manner. All the transactions in game will be held by "Meta NFT World" token in-game,

Our game is a community based on concepts of BUILD, PROTECT and EARN which will allow users to grow and harvest different businesses in different sectors. Each user will experience and enjoy building and earning while taking care of his own digital assets.

There will be the Buying and selling of virtual items and advertisement sector where the investors can invest and holders can sold their NFT asset to other players with Linked exchange and other than this there is also buying and selling of land in it. More than this community base game also includes things like advertisement and farming, lending your land to earn passive income.

# GLOBAL VIRTUAL INDUSTRY

The global augmented reality (AR), virtual reality (VR), and mixed reality (MR) market is forecast to reach 30.7 billion U.S. dollars in 2021, rising to close to 300 billion U.S. dollars by 2024.

The Virtual Reality (VR) market is estimated to grow at a CAGR of about 48.7% over the forecast period 2021 to 202. With many individuals compelled to work remotely because of the COVID-19 pandemic, the very idea of how organizations work together is evolving quickly. This is anticipated to augment the market for virtual reality.

As of now, employees are collaborating utilizing video-conferencing platforms, for instance, Zoom, and talking on Slack, Teams, and other texting applications. However, there's another, the conceivably undiscovered path for individuals to work together regardless of whether they're handfuls or even several miles apart: virtual reality (VR).

VR Technology has gained widespread recognition and adoption over the past few years. Recent technological advancements in this field have revealed new enterprises. Numerous players are emerging in this market with the hopes of navigating it toward mainstream adoption.

Virtual reality has often found its application compelling, with interactive video games or even movies and television series. Wherever it is too dangerous, expensive, or impractical to do in reality, virtual reality is seen as an ideal replacement. With the increasing demand for cloud gaming and innovative gaming consoles, the demand for immersed environment gaming is increasing rapidly.

One of the most well-known uses of VR headsets is in gaming applications. Companies such as Oculus, HTC, and Sony, have created a range of products that consumers can use for a total immersive gaming experience. However, there are also other applications for XR products, such as remote assistance and training.

Consumers are widely using VR applications based on different purposes, such as the automobile, gaming, and media and entertainment industries. The latest technologies across the consumer electronics segment are boosting the growth of virtual reality for multiple applications across the marketplace. For instance, consumers are moving toward virtual reality in gaming with high definition, stunning graphics, and motion with high-end audio.

# WHY CHOOSE META NFT WORLD?

## Open for global participants

Meta NFT World facilitates the transaction and brings them closer to a wider audience. An added benefit of Meta NFT World use is that it's completely decentralized, so trading can be done freely across borders. The use of technology will facilitate a financial revolution that will leave everyone more financially connected, empowered, and enabled. Meta NFT World has no border so these can be used no matter where you are located globally. This also has a huge effect on international payment fees. Traditionally international transfers have much higher fees than domestic transfers and payments. International payments and transfers with crypto are the same as domestic.

## Free from corporate and government interference

Meta NFT World transactions have no intermediary institutions or government involvement, the costs of transacting are kept very low. Additionally, any transfer happens very quickly, eliminating the inconvenience of typical authorization and waiting period requirements.

## Increased liquidity for investors

Meta NFT World enjoys high liquidity as they are traded. The importance of high liquidity includes fair asset prices, market stability, technical analysis accuracy, and quicker transactions.

## Binance Blockchain

Meta NFT World is a Binance-blockchain token means that it supports a few functions that all BEP-20 tokens support.

# WHY CHOOSE META NFT WORLD?

## Transparency & Immutability

With Meta NFT World , each time exchange of tokens is recorded on the blockchain, an audit trail is present to trace where they came token from. This can not only help improve security and prevent fraud in exchange-related businesses, but it can also help verify the authenticity of the traded assets.

## Lower Fees and Security

The fees associated with Meta NFT World token transactions are far less than those associated with debit, credit cards as well as wire transfers, and BACS payments. Meta NFT World is a secure and private cryptocurrency that keeps the investor's assets anonymous without compromising security.

## Transaction Traceability

Meta NFT World is far more secure than other record-keeping systems because each new transaction is encrypted and linked to the previous transaction. Meta NFT World is formed by a complicated string of mathematical numbers and is impossible to be altered. This immutable and incorruptible nature of the Meta NFT World makes it safe from falsified information and hacks once formed.

## Ease of use

Ease of use is the reason why Meta NFT World has more value. All you need is a smart device and an internet connection. Investors can easily earn rewards by holding the token.

## Safe & Secure

Meta NFT World is a safe and secure platform which is audited by Techrate and our technical team is continuously improving the security of system to ensure the safety of platform.
